P313 8 Roadblocks to Critical Thinking	<ul style="list-style-type: none"> State the 8 roadblocks and their impact Develop approaches to avoiding these pitfalls 	This video (along with a MAGIC CAT) introduces 8 barriers to effective critical thinking. Being aware of these pitfalls encourages us to avoid them and so improve our analysing and decision-making skills.

P314 Root Cause Analysis – 5 Why's?	<ul style="list-style-type: none"> State what is meant by the term root cause analysis Demonstrate the use of the 5 Why's technique 	This video looks at route cause analysis and its importance to accurate analysis and decision making. The '5 Why's' technique is a simple but effective way of getting to the root of your problem to solve the cause, not the symptom.
P315 8 Reasoning Errors in Critical Thinking	<ul style="list-style-type: none"> State what the 8 Common reasoning errors are Listen out for these errors in your own, and others' arguments 	This video introduces 8 reasoning errors – techniques that are used to conclude or persuade that demonstrate a lack of critical thinking or reduce the decision making ability. By avoiding such pitfalls we can develop our critical thinking skill.
P316 Becoming a Critical Thinker	<ul style="list-style-type: none"> State the characteristics of a critical thinker Describe what stage you are at in the development of your own critical thinking ability 	This video looks at what critical thinking is, and why developing critical thinking skills is so important. It highlights the traits of a critical thinker and describes the stages from 'unreflective thinker' to 'Master thinker'

12.3 Decision Making

pearl of wisdom®	Learning Outcomes	Pearl Descriptor
P317 Methodical v Intuitive Decision Making	<ul style="list-style-type: none"> Describe the conventional wisdom of the methodical approach to decision making Articulate the counter argument that supports intuitive decision making 	This video looks at the methodical approach to decision making, that will be familiar to most. But whilst 'gathering all the data' and 'taking time over decisions' has its place, author Malcolm Gladwell states the conditions where it's often instant, gut-instincts that serve us best...
P141 Good Decision Making	<ul style="list-style-type: none"> List three decision making conditions that influence your decisions Describe each decision making condition 	Looks at the challenge of making good decisions and introduces you to three key decision making conditions that we all face in trying to make a good decision.
P168 Fishbone Diagram	<ul style="list-style-type: none"> Outline the benefits of the Fishbone Diagram Describe how to breakdown problems by identifying their causes Reproduce a Fishbone Diagram 	Illustrates the technique of creating a fishbone diagram to map and then understand the relationship between causes and the effects of problems. After introducing the technique, you are taken through the process of creating your own diagram.
P149 Using Data and Information	<ul style="list-style-type: none"> Describe the difference between data and information Describe the relationship between data and information 	Introduces you to the DIKW model - clarifying the difference between data and information, and providing an example of how data links to information, leading to knowledge and wisdom.
